and NSD File No. L-00-72.

Dear FCC:

My husband and I just purchased Tracfones a couple of weeks ago. The reasons behind them are 1. We don't want and can't afford a monthly service bill, and Tracfones fit our needs, 2. We are currently expecting a baby and the ability to reach eachother in emergency cases is great. If you raise the price on the Phone cards it will be two less people that will have the ability to contact eachother in emergency situations.

I assume that many of you have families and in the world today being able to contact your loved ones is something of a priotiry. Please take my thoughts into heavy concerdation. Thank you for your time.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Sara Hanna
